### Measure Domain

#### PRIMARY MEASURE DOMAIN

Patient Experience

The validity of measures depends on how they are built. By examining the key building blocks of a measure, you can assess its validity for your purpose. For more information, visit the [Measure Validity](#) page.

#### SECONDARY MEASURE DOMAIN

Does not apply to this measure

### Brief Abstract

#### DESCRIPTION

The CAHPS Health Plan Survey 4.0H, Child Version provides information on parents' or guardians' experiences with their child's health plan. Results summarize member experiences through ratings, composites and individual question summary rates.

Four global rating questions reflect overall satisfaction.

1. Rating of All Health Care
2. Rating of Personal Doctor

3. Rating of Specialist Seen Most Often
4. Rating of Health Plan

For this "Rating of Specialist Seen Most Often" measure, parents or guardians rate their child's specialist on a scale from 0 to 10, where 0 is the "worst specialist possible" and 10 is the "best specialist possible".

## **RATIONALE**

NCQA's Committee on Performance Measurement has long felt that consumer experience with health care is a critical component of quality of care and is itself an outcome of care.

## **PRIMARY CLINICAL COMPONENT**

Specialist health provider; members' satisfaction

## **DENOMINATOR DESCRIPTION**

Health plan members 17 years and younger whose parent or guardian answered the "Rating of Specialist Seen Most Often" question on the CAHPS 4.0H Child Questionnaire (see the "Description of Case Finding" and "Denominator Inclusions/Exclusions" fields in the Complete Summary)

## **NUMERATOR DESCRIPTION**

Parents' or guardians' ratings of their child's specialist on a scale from 0 to 10, where 0 is the "worst specialist possible" and 10 is the "best specialist possible" (see the related "Numerator Inclusions/Exclusions" field in the Complete Summary)

## **Evidence Supporting the Measure**

### **EVIDENCE SUPPORTING THE CRITERION OF QUALITY**

- A formal consensus procedure involving experts in relevant clinical, methodological, and organizational sciences
- One or more research studies published in a National Library of Medicine (NLM) indexed, peer-reviewed journal

## **Evidence Supporting Need for the Measure**

### **NEED FOR THE MEASURE**

Unspecified

## **State of Use of the Measure**

### **STATE OF USE**

Current routine use

## **CURRENT USE**

Accreditation  
Decision-making by businesses about health-plan purchasing  
Decision-making by consumers about health plan/provider choice  
External oversight/Medicaid  
External oversight/State government program  
Internal quality improvement

## **Application of Measure in its Current Use**

## **CARE SETTING**

Managed Care Plans

## **PROFESSIONALS RESPONSIBLE FOR HEALTH CARE**

Physicians

## **LOWEST LEVEL OF HEALTH CARE DELIVERY ADDRESSED**

Single Health Care Delivery Organizations

## **TARGET POPULATION AGE**

Age less than or equal to 17 years

## **TARGET POPULATION GENDER**

Either male or female

## **STRATIFICATION BY VULNERABLE POPULATIONS**

Unspecified

## **Characteristics of the Primary Clinical Component**

## **INCIDENCE/PREVALENCE**

Unspecified

## **ASSOCIATION WITH VULNERABLE POPULATIONS**

Unspecified

## **BURDEN OF ILLNESS**

Unspecified

## **UTILIZATION**

Unspecified

## **COSTS**

Unspecified

# **Institute of Medicine National Healthcare Quality Report Categories**

## **IOM CARE NEED**

End of Life Care  
Getting Better  
Living with Illness  
Staying Healthy

## **IOM DOMAIN**

Patient-centeredness

# **Data Collection for the Measure**

## **CASE FINDING**

Both users and nonusers of care

## **DESCRIPTION OF CASE FINDING**

Health plan members 17 years and younger as of December 31st of the measurement year, who have been continuously enrolled in the health plan during the measurement year (commercial) or the last 6 months of the measurement year (Medicaid), with no more than one gap in enrollment of up to 45 days (commercial) or up to 1 month (Medicaid) during the measurement year and who were enrolled at the time the survey was completed

## **DENOMINATOR SAMPLING FRAME**

Enrollees or beneficiaries

## **DENOMINATOR INCLUSIONS/EXCLUSIONS**

### **Inclusions**

Health plan members 17 years and younger whose parent or guardian answered the "Rating of Specialist Seen Most Often" question on the CAHPS 4.0H Child Questionnaire. Include nonresponses\*.

\*Nonresponses:

- Refusal
- After maximum attempts
- Bad addresses
- Bad addresses and nonworking/unlisted phone number or member is unknown at the dialed phone number

### **Exclusions**

- Deceased
- Does not meet *eligible population* criteria (see "Description of Case Finding" field)
- Language barrier

### **RELATIONSHIP OF DENOMINATOR TO NUMERATOR**

All cases in the denominator are equally eligible to appear in the numerator

### **DENOMINATOR (INDEX) EVENT**

Patient Characteristic

### **DENOMINATOR TIME WINDOW**

Time window precedes index event

### **NUMERATOR INCLUSIONS/EXCLUSIONS**

#### **Inclusions**

Parents' or guardians' ratings of their child's specialist on a scale from 0 to 10, where 0 is the "worst specialist possible" and 10 is the "best specialist possible"

A rating mean and variance are calculated after recoding individual member responses to a score value of 1, 2, or 3. A higher rating mean is associated with better quality.

Two question summary rates and question summary rate variances are calculated for each rating question.

1. Question Summary Rate (8+9+10) and Question Summary Rate Variance (8+9+10) are calculated using Score Values (8+9+10)
2. Question Summary Rate (9+10) and Question Summary Rate Variance (9+10) are calculated using Score Values (9+10)

**Note:** A questionnaire must have the final disposition code of *Complete and Valid* survey for inclusion in the survey results calculations.

Refer to the original measure documentation for details.

**Exclusions**

Unspecified

**MEASURE RESULTS UNDER CONTROL OF HEALTH CARE PROFESSIONALS, ORGANIZATIONS AND/OR POLICYMAKERS**

The measure results are somewhat or substantially under the control of the health care professionals, organizations and/or policymakers to whom the measure applies.

**NUMERATOR TIME WINDOW**

Fixed time period

**DATA SOURCE**

Administrative data  
Patient survey

**LEVEL OF DETERMINATION OF QUALITY**

Not Individual Case

**PRE-EXISTING INSTRUMENT USED**

Unspecified

**Computation of the Measure****SCORING**

Non-weighted Score/Composite/Scale

**INTERPRETATION OF SCORE**

Better quality is associated with a higher score

**ALLOWANCE FOR PATIENT FACTORS**

Analysis by subgroup (stratification on patient factors, geographic factors, etc.)

**DESCRIPTION OF ALLOWANCE FOR PATIENT FACTORS**

This measure requires that results are reported separately for the commercial and Medicaid product lines.

**STANDARD OF COMPARISON**

External comparison at a point in time  
External comparison of time trends  
Internal time comparison

### FUNDING SOURCE(S)

Unspecified

### COMPOSITION OF THE GROUP THAT DEVELOPED THE MEASURE

National Committee for Quality Assurance's (NCQA's) Measurement Advisory Panels (MAPs) are composed of clinical and research experts with an understanding of quality performance measurement in the particular clinical content areas.

### FINANCIAL DISCLOSURES/OTHER POTENTIAL CONFLICTS OF INTEREST

In order to fulfill National Committee for Quality Assurance's (NCQA's) mission and vision of improving health care quality through measurement, transparency and accountability, all participants in NCQA's expert panels are required to disclose potential conflicts of interest prior to their participation. The goal of this

Conflict Policy is to ensure that decisions which impact development of NCQA's products and services are made as objectively as possible, without improper bias or influence.
